PROFESSIONAL PROFILE

Data Analytics Engineer with an MSc in Data Analytics delivering 15+ enterprise solutions processing 10M+ records daily across HR, Finance, and Retail. Specialized in Azure (Data Factory, Databricks) and AWS cloud ecosystems, architecting scalable ETL/ELT pipelines, data warehouses, and Business Intelligence dashboards. Leveraged Agile methodologies to drive 40% efficiency gains through automation while maintaining 99% accuracy. Expert in API integration, dimensional modeling, and translating complex analytics into strategic business value.

WORK EXPERIENCE

Data Analyst | VeeVee Controls Pvt Ltd, Bengaluru, India | September 2022 – August 2023

- Engineered 4 enterprise SQL datasets serving HR and Finance teams, accelerating report generation by 25% and slashing turnaround cycles by 15% through predictive modeling and data warehouse optimization.
- Orchestrated recurring ETL workflows via SQL scripting and Power Query within Agile sprints, eliminating 40% of manual preparation overhead and freeing 16 hours weekly for strategic analysis.
- Built reusable star-schema data warehouse frameworks with dimensional modeling, establishing unified Business Intelligence KPI standards across 3 departments while achieving 99% precision through API-driven validation.
- Migrated legacy Excel systems to scalable cloud architecture, boosting dashboard responsiveness 150% (25s → 10s) and empowering C-suite executives with real-time decision-making capabilities.
- Deployed intelligent pipeline monitoring with REST API integration that detects failures 4 hours faster, boosting system uptime by 8% and preventing \$50K+ in potential revenue loss.
- Authored comprehensive technical documentation (runbooks, SOPs, data dictionaries) that cut new analyst ramp-up time by 60%, from 2 weeks to 5 days.

Customer Assistant (Part-Time) Tesco, Dublin, Ireland April 2024 – Present

EDUCATION

Master of Science in Data Analytics | Dublin Business School, Dublin, Ireland | September 2023 – September 2024

Key Modules: Programming for Data Analysis, Statistics, Machine Learning & Pattern Recognition, Advanced Data Mining, Data Warehousing, Business Intelligence, Applied Research.

Bachelor of Engineering in Electrical and Electronics | Visvesvaraya Technological University (VTU), India | July 2018 – July 2022

KEY PROJECTS

Customer Segmentation & Recommendation System | Python, Azure Databricks, PySpark, scikit-learn.

- Spearheaded an end-to-end retail data warehouse solution processing 540K+ transactions on Azure Databricks, optimizing job runtime by 40% and delivering RESTful API endpoints for real-time recommendations.
- Architected an RFM framework with K-Means Clustering and PCA for customer lifetime value analysis; deployed a recommendation engine achieving 25% relevance improvement via CI/CD pipelines.

Loan Score Calculation Big Data Processing Pipeline | PySpark, SQL, HDFS, Apache Hive, Parquet

- Designed a PySpark-based data warehouse calculating loan risk scores from 1M+ records, implementing schema validation protocols maintaining 99% accuracy for credit decisioning APIs.
- Optimized storage architecture using Parquet format on HDFS, cutting infrastructure costs by 35% while accelerating query performance by 3x; built external Hive tables for cross-functional Business Intelligence.

TECHNICAL SKILLS

Programming Languages: Python, SQL, PySpark, YAML, Bash, NoSQL, Hive, JSON.

Cloud Platforms & Big Data: Azure (Data Factory, Databricks, Synapse), AWS (S3, Glue, Redshift), Snowflake, HDFS, Kafka, Apache Airflow.

Data Engineering & Warehousing: Data Warehouse Design, dbt, ETL/ELT Pipelines, Star Schema Modeling, API Development (REST/GraphQL), GDPR/PII Compliance.

Business Intelligence & Analytics: Power BI (DAX, Power Query), Tableau, scikit-learn, Predictive Analytics, MLOps, RAG Systems, Dashboard Development.

DevOps & Agile Tools: Git, Azure DevOps (CI/CD), Docker, Postman (API Testing), PostgreSQL, MongoDB, Excel (PowerPivot), Linux, Agile/Scrum.

CERTIFICATIONS

Data Engineer Master Program (Cloud & Big Data Focus) • AWS Certified Cloud Practitioner (CLF-C02) • SQL Programming • Data Analytics (Simplilearn)
